

Piazza Inc. :: Urban Site Furnishings & Outdoor Commercial Playground Equipment

Piazza Inc. is the Southeast's Choice for Beautiful Urban Site Furnishings, Innovative Outdoor Commercial Playground Equipment and Park Amenities.

PIAZZA Inc. has been providing exceptional Urban Site Furnishings and Outdoor Play Structure products for beautiful outdoor environments since 1992. Our clients appreciate our ability to provide innovative products of the highest quality, combined with exceptional customer service.

Custom Outdoor Designs are the specialty of several of our urban site furnishing and outdoor play equipment companies, allowing you to create functional art for a truly unique space (see the manufactures highlighted on the left).

We are committed to assisting our clients in designing recreational outdoor environments that meet or exceed the standards for public playground safety, and to providing play opportunities for all abilities (as relates to the Americans With Disabilities Act). We can provide CAD drawings to those who are hands on , or you can forward your drawings for us to do the work.

Quality is a high priority for us in both product and service. It is for this reason that our sales consultants have "nuts and bolts" knowledge, and our installation teams are factory authorized and have CPSI status to perform full service to our product lines.

We have worked with hundreds of organizations in developing safe, durable and beautiful outdoor urban and playground environments. We hope our experience and service will be something you will come to appreciate.

PIAZZA Inc. is a 100% woman owned business.
